Data Element	Description
End of Period	End of Period Date represents the date when the snapshot was taken - "as of" date for specific record.
Loan Number	<p>When used generally, the term loan refers to IBRD loans and IDA credits and grants.</p> <p>For IBRD loans and IDA credits or grants a loan number is a five-character label that uniquely identifies the loan. The first four characters correspond to the loan number on the legal agreement, and the fifth character further identifies the respective portion of the financing associated with the project (for example, 12340, 12341, 1234A, etc.). In IDA, all grants start with the letter 'H'.</p>

Original Principal Amount	The original US dollar amount of the loan that is committed and approved. For converted loans (CPL, SCP/SCL), and IDA credits with an MDRI component, amounts shown may be net of transferred amounts/application of MDRI. Alternatively, when new loans are set up to facilitate conversions from one product to another (e.g. a conversion from a Single Currency loan to a Fixed Spread loan), the original principal amount for the new loan may be shown as zero, since the new loan does not represent a new Board commitment. Similarly, new credit tranches created for the MDRI portion of an existing credit may have an original principal amount of zero since they do not represent new Board approvals.
Cancelled Amount	The portion of the undisbursed balance which has been cancelled (i.e. no longer available for future disbursement). Cancellations include terminations.

For IDA, repaid amounts include amounts written off under the Multilateral Debt Relief Initiative (MDRI).

General Notes:

1. Original principal amount less cancelled amount may not equal disbursed amount plus undisbursed amount due to exchange rate movements.
2. The disbursed amount less the repaid amount may not equal the borrower's obligation due to exchange rate movements.
